# Native Prairie Speaker Series Webinar

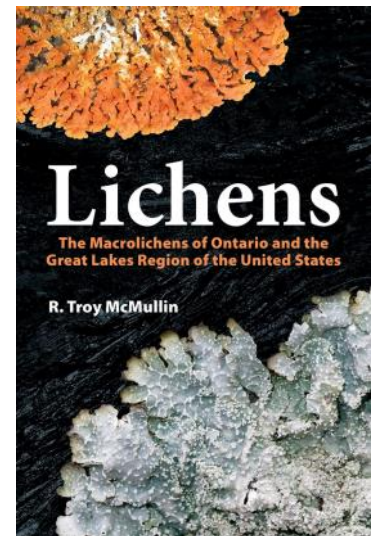

**Speaker:** Dr. Troy McMullin, Research Scientist, Lichenology, Canadian Museum of Nature

**About this Webinar:**

In this presentation, Troy will provide the fundamentals on what lichens are, their ecological functions, human uses, and he will highlight some of the more common and interesting species occurring in the Canadian Prairies.

**About the Speaker:**

Dr. Troy McMullin is a Research Scientist in Lichenology at the Canadian Museum of Nature in Ottawa, Canada. His research program is focused on lichen biodiversity and conservation in Canada. He has published hundreds of articles in popular media and scientific journals along with five books on lichens, one of which was recently released:

PCAP's Native Prairie Speaker Series is a monthly webinar about prairie conservation or species at risk.

**Hosted by:** Caitlin Mroz-Sailer, Stewardship Coordinator, Saskatchewan Prairie Conservation Action Plan

**This webinar is also part of Native Prairie Appreciation Week, Presented by:**
