Prairie Conservation
Action Plan

Adopt a Rancher

Taking Action for Prairie

Proceeds from the
Silent Auction
will go to support
SK PCAP's
Outreach and
Education Programs

TAKING ACTION FOR PRAIRIE:

This interactive 2 hour program for Grades 6-8 students increases awareness and appreciation of the native prairie ecosystem and its conservation through the development and implementation of an Action Project by each grade after program delivery.

ADOPT A RANCHER:

Grade 10 Students analyze a ranch ecosystem in a case study that they develop themselves. By using a student guide and online resources and communicating with the adopted rancher, students will explore how ranching protects Saskatchewan's native grasslands while providing economic benefits for Saskatchewan people.

NATIVE PRAIRIE SPEAKER SERIES - WEBINARS:

Reaching over 1500 people per year, SK PCAP has hosted over 100 webinars about prairie conservation and species at risk. Topics cover a wide variety of species, stewardship activities and best management practices. Webinars are recorded and put on our YouTube Channel as a resource where people can learn at their convenience.
